

# Center for Risk Management

GULF COAST SAFETY INSTITUTE

## 2026 SUMMER COURSE SCHEDULE (Main Campus)

The Center for Risk Management safety training classes are supported through a generous grant from the Texas Mutual Insurance Company. Continuing Education Units (CEUs) and certificates of completion will be awarded upon successful completion of each class. There is NO enrollment fee. **NOTE: These classes are being held at College of the Mainland's Main Campus: 1200 N. Amburn Rd. Texas City, TX. 77591. REGISTER TODAY** by calling **409-933-8162**. For any questions regarding the class call 409-933-8162.

### Introduction to Combustible Dust Hazards

This course covers the hazards posed by combustible dust within general industry. Course topics include recognizing the hazards and risks associated with combustible dust, control of electrical installation hazards, and developing controls and strategies to prevent or mitigate combustible dust fires and explosions. Upon course completion the student will have the ability to utilize strategies that assure employee safety while using or producing materials that generate combustible dust and the ability to use OSHA Standards, National Fire Protection Association (NFPA) Standards, and other applicable consensus standards that impact industries which generate combustible dust.

OSHT-1071-124C0 (3066) • **6/5/2026** • Friday 8:00am - 5:00pm • ICB Room 301 • Jimm Cooper

### Occupational Noise Exposure Hazards

This course focuses on describing noise hazards in the workplace. The course includes OSHA occupational noise exposure standards, properties of sound, noise-induced hearing loss, noise exposure control, selection and use of hearing protection, sound level surveys, noise dosimetry, and worker training. Classroom demonstrations of noise instrumentation and hearing protection devices are featured. The target audience is the employer or representative designated with the responsibility to develop a noise program. At the conclusion of this course, students will describe sound properties and their relationship to noise-induced hearing loss, hearing protection usage, and using a sound level meter.

OSHT-1071-127C0 (3069) • **7/17/2026** • Friday 8:00am - 5:00pm • ICB Room 301 • Bridgett Morales

### OSHA Recordkeeping

This course covers OSHA requirements for maintaining and posting records of occupational injuries and illnesses and reporting specific cases to OSHA. Upon course completion students will have the ability to identify OSHA requirements for recordkeeping, posting and reporting and to complete OSHA Form 300 Log of Work-Related Injuries and Illnesses, OSHA Form 300A Summary of Work-Related Injuries and Illnesses, and OSHA Form 301 Injury and Illness Incident Report.

OSHT-1071-126C0 (3068) • **7/31/2026** • 8:00am-5:00pm • ICB Room 301 • Jimm Cooper

### Bloodborne Pathogens Exposure Control

This course covers the development and implementation of Exposure Control Plans (ECP). Course topics include understanding the OSHA Bloodborne Pathogens Standard, determining potential exposure and control methods, developing an ECP, vaccinations, exposure incidents, training, and record keeping. The target audience is the program administrator, manager, or other personnel designated with the responsibility of developing a Bloodborne Pathogens ECP. Course highlights include students developing a template for their facility's ECP. Upon course completion, the participant will have the ability to take a systematic approach to developing an ECP.

OSHT-1071-128C0 (3070) • **8/7/2026** • Friday 8:00am - 5:00pm • ICB Room 301 • Shirla Archer

## Health Hazard Awareness

This course covers common health hazards that are encountered in the workplace. These health hazards include exposure to chemicals, asbestos, silica and lead. Course topics include identification and evaluation of health hazards and their sources of exposure, health hazard information, and engineering and work practice controls. Students participate in workshops on evaluation and abatement of workplace health hazards. Upon course completion students will have the ability to understand common health hazards in the workplace and methods for controlling and abatement of these hazards.

OSHT-1071-129C0 (3075) • 8/21/2026 • 8:00am-5:00pm • ICB Room 301 • Cassandra Dillon

College of the Mainland • Gulf Coast Safety Institute • 7825 Monticello Dr., Texas City, TX. 77591
